MILLIONS IN FINES FACED BY OIL MEN

Ohio Grand Jury Returns Indictments by Wholesale.

TRUST AND INDIVIDUALS NAMED

Rockefeller, Archibald, Rogers and Others Indicted—Sheriff Will Begin at Once Serving Indictments on the Oil Magnates.

Findlay, O., Jan. 16.—The January panel of the Hancock grand jury, which has been in session for the past week, reported Monday at 2 o'clock p. m. to Judge Schroth, who was temporarily occupying the bench of Judge Duncan.

In the report there are 939 separate indictments against the Standard Oil company of New Jersey, the Standard Oil company of Ohio, the Ohio Oil company, the Buckeye Pipe line, the Solar Refinery company, the Manhattan Oil company, John D. Rockefeller, H. H. Rogers, Wesley Tilford, John D Archbold, F. H. Barstow, William Rockefeller and H. T. Cuthbert. They are formally charged with being members of a trust for conspiracy against trade.

There are 525 words in each indictment, or a total of 452,975 words. Each case will be docketed separately, and the county clerk and sheriff's office will be swamped for some months to come.

Sheriff Groves and his deputies will begin at once to serve a copy of the indictment on each of the defendants.

Prosecutor David said that he purposely held off action until the salary law with county officials became effective, as he did not wish to run up a big cost bill, which would have resulted under the old fee system.

If Hancock county wins in each case, when they are tried, fines can be assessed aggregating $58,000,000.

When the report of the jury was filed, Prosecutor David, on his own motion, nollied the indictments returned last September against John D. Rockefeller, M. G. Villas, J. M. Robertson and H. P. McIntosh, the last three named being officials of the Standard Oil company of Ohio.

Removes Only Competitor.

City of Mexico, Jan. 16—The United Railway company of Yucatan, according to reliable reports received here from Merida, has acquired at a cost of $2,500,000 complete control of the wharfage and warehouse facilities at the port of Progresso by the purchase of the holdings of the LaAntigua Agencia Commerciale, which company was formed some years ago by E. Rath, and the house of Thebaud company, of New York. This transaction removes the only competitor in Yucatan of the United Railroads in the wharfage and storage business.

Elevated Trains Tied Up.

Chicago, Jan., 16.—Thousands of persons were forced to walk to work Tuesday by a complete tie-up in the loop system of all elevated trains. Many of the passengers alighted from the stalled cars and walked along the elevated structure to the nearest station. Officials of the road offered no reason for the sudden shutting off of power.

TO RECLAIM SWAMPS.

Extensive Plan Now on Foot for that Purpose.

Washington, Jan. 16—An extensive plan for the reclamation of swamp and overflowed lands wil be considered at an early meeting of the senate committee on public lands. The scheme is advanced in a bill introduced by Senator Clapp, which provides for the establishment of a "drainage fund" from all moneys received from the sale of public lands in Alabama, Arkansas, Florida, Illinois, Indiana, Iowa, Louisiana, Michigan, Missouri, Minnesota, Ohio and Wisconsin, except the 5 per cent set aside by law for educational and other purposes.

Under the bill the secretary of the interior is directed to make examinations and surveys for construction of works for the drainage of swamp lands and to report to congress on or before July 1, each year, as to the results. The reports are to include estimates of all contemplated works, the quantity and the location of the lands which can be reclaimed and all lands relative to the practicability of the proposed projects.

Half a Million Dollar Fire Loss.

Chicago, Jan. 16.—Half a million dollars' worth of property was destroyed today by a fire which partially burned an eight-story building on Dearborn street, occupied principally by M. A. Donahue & Co., printers and publishers. The fire is thought to have been caused by spontaneous combustion. Other firms whose place of business were destroyed by the fire were the Thalman Printing company, E. Moorehouse, Edwards Book Bindery, George H. Benedict & Co., publishers, W. S. Reeves, printing and publishing company; Thomas W. Jackson, publishing company; Andalusia Cork company; Thomas W. Decker says he gave Packer $500 as security, but failed to receive the appointment as promised or any other benefit. Packer fainted from excitement when taken before United States Commissioner Foote, but was soon revived.

Morgantown, Ky., Jan. 16.—R. S. Blanchett, aged 30 years, alleged to have criminally assaulted Miss Rosa Christian, aged 18 years, at the point of a gun, and to have taken a shot at her father, John Christian, made the young woman his bride and the prosecution has been stopped. Blanchett narrowly escaped a mob bent on lynching when he was arrested. The courthouse, where the weding took place, was crowded with excited men when he was brought in for arraignment, but the marriage satisfied them.

Four Injured on Coast Line.

Richmond, Va., Jan. 16.—Four persons were hurt, and a number of passengers shaken up as a result of a wreck near Benson, N. C., early Monday when the Atlantic Coast Line railway's Florida special ran into a large locomotive at the water tank near Benson. No one on either train suffered fatal injuries. So far as can be entertained, no passengers suffered severe injuries.

Thomas Was Bound Over.

Macon, Ga., Jan. 16.—Eli Thomas, the negro who was charged with stealing the purse of a negro girl nurse in the family of Mrs. E. M. Knowles, of East Macon, was held and sent to the county jail under a charge of larceny. After securing the purse from a street car where the girl forgot it, Thomas gave the police a warm chase. Officer Lavender effected his capture.

WATERWAY BILL MAY BE BEATEN

Money for Rivers and Harbors in Danger.

WHOLE BILL MAY BE KILLED

Scheme of Chicago and Middle West Delegations Has Angered Burton and Friends, Who Won't Allow the Water Bill Mutilated.

Washington, Jan. 16.—If a scheme which was formulated Monday is successful, there will likely be no rivers and harbors appropriation this year.

Chicago and other middle west delegations here in the interest of a 14-foot waterway from the gulf to the lakes, are trying to inaugurate a movement for putting their provisions into the rivers and harbors bill, by amendment on the floor of the house, in other words, to go over Mr. Burton's head and the heads of the other members of his committee, to the house.

Mr. Burton and all the members of the committee will resist this to the ottermost, for the well established principle of allowing the rivers and harbors committee to determine these matters is considered a good one, and if the bill is mutilated in this one particular, it may be amended all throughout, and rather than allow this it is considered not unlikely that the friends of Mr. Burton and of the principle which has prevailed, will cause the whole bill to be killed.

Talk With Harvie Jordan.

Birmingham, Ala., Jan. 16.—In speaking about the fight being made to secure a fraud order against the New York cotton exchange, President Harvie Jordan, of the Southern Cotton association, said: "It is being carried on as rapidly as possible, and will, no doubt, result in forcing the New York cotton exchange to do a legitimate business, or else admit to the world that they are maintaining a game of pure speculation." When asked if the New York cotton exchange would bring any means to oppose his re-election, Mr. Jordan said: "Undoubtedly they would be glad to see me defeated. As the president of the Southern Cotton association, I have made myself conspicuous in the past few years. Their wires ramify the south. They are able to subsidize newspapers and prejudice the cause against me."

Both Drew Guns.

Delphos, O., Jan. 16.—A pistol duel took place on the street here, as people were returning from church between William Chris Kleinshause and William Woodruff, but no shots took effect. Woodruff was accused of being attentive to Kleinhaus' wife. Several weeks ago Kleinhaus applied for a divorce, but a few days ago the couple patched up their differences. Woodruff, who had been away, returned to Delphos, and wehn the two men met on the street the shooting took place. Both men have been arrested.

Boy Bitten by Mad Dog.

Eatonton, Ga., Jan. 16.—Emory Speer Manley, a bright young namesake of Georgia's well known jurist, and the 5-year-old son of Mr. and Mrs. John Manley, of this county, who was severely bitten by a mad dog Friday, have been carried to the Pasteur Institute in Atlanta for treatment. A rabbit inoculated with virus from the dog went mad within a few hours after inoculation, and the parents and family of the little sufferer are awaiting results of his treatment with great anxiety.

Charged With Counterfeiting.

Atlanta, Jan. 16.—The United States Grand jury found a true bill against W. F. Looper, of Fannin county, for counterfeiting. Looper was one of the most prominent citizens of that section of the state and his arrest some months ago created a decided commotion among those who knew him.

CRIME LAID TO TWO TRAMPS.

Man Killed by Freight Train, But Foul Play is Suspected.

Atlanta, Jan. 16.—Two supposed tramps were arrested by the town marshal of Moreland, Ga., charged with being implicated in the death of Glynn Puckett, a flagman on the Western and Atlantic railroad.

The flagman left shortly after midnight on a freight train for a through trip to Montgomery. He was bothered by three tramps, who were trying to steal a ride on the train. He put them off at Newnan. However, on arriving at Moreland he still found them on, and taking charge of the men, he waited until the conductor could summon the town marshal. In the meantime the train was doing some switching in the yards. When the conductor returned he found Mr. Puckett dead on the tracks. It is not known whether the tramps pushed the flagman on the tracks, and held him until a freight car crushed his body. This all happened about 1 o'clock in the morning.

Subscription for McGovern.

New York, Jan. 16.—More than $5,000 has so far been subscribed to the fund which is being raised for Terry McGovern who is now confined in a sanitarium. It is intended that the money which is being subscribed largely from sporting and theatrical circles, shall be placed in trust for the benefit of McGovern and his penniless family. George M. Cohen is acting as treasurer of the fund and is also one of the managers of the testimonial benefit which wil be held in Madison Sqare Garden, Jan. 23.

Millions Needed for Railroads.

St. Paul, Minn., Jan. 16.—Governor John A. Johnson has received a letter from James J. Hill, president of the Great Northern Railway company, declaring that it would require a permanent investment of $1,000,000,000 a year for five years to provide the railroads of the country with means to handle properly the business already in sight, and not allowing for future growth.

Still Aiding Refugees.

Los Angeles, Cal., Jan. 16.—The list of San Francisco refugees dependent on the Los Angeles citizens' relief fund is as large as it ever has been. Captain F. Edward Gary, secretary of the relief committee, says he is puzzled to know when the stream of refugees will end. Two thousand dollars a month is still being spent to relieve the necessities of the refugees.

Caught in the Act.

Cynthiana, Ky., Jan. 16.—After working the short change game on half a dozen persons, a man claiming to be J. W. Shoutz, of Paris, Ky., was caught by Chief of Police Hughes when in the act of swindling another victim. He was placed in jail. Shoutz is thought to be the person who had "worked" the merchants of Richmond and Georgetown last week.

Washington, Jan. 16.—Plans for the national campaign of 1908 already are being formulated by the republicans. A meeting of the executive committee of the national league of republican clubs is being held here today for the purpose of making preliminary preparations for the opening of the campaign.

Atlanta, Jan. 16.—According to the reports at the police station Monday was the bigest day on record for cash fines. The total amount assessed by the recorder during the day, in both the morning and evening session, was $2,092.25, not including two sentences of thirty days each in the city stockade.

NEGROES WILL DIG BIG PANAMA CANAL

If Contract Is Awarded to Mr. Oliver.

HE WILL EMPLOY 5,000 NEGROES

The Winning of the Contract by Oliver Would Mean Much to the Labor Now Unemployed in the Southern States.

Washington, Jan. 16.—In the event the Oliver-Bangs combination is given the contract for digging the Panama canal, which is likely, southern negroes will be used extensively for labor.

Oliver will take 5,000 negroes to Panama the minute he is notified that the contract has been awarded his firm, and this number will be increased from time to time as conditions warrant.

Conditions in Panama in some respects are similar to conditions in some of the southern states, where Oliver has done much work. He is familiar with the best methods for handling the negro, and feels that he can use them to advantage in digging the big ditch.

In addition to the negroes, Oliver will take a force of white steam shovel men, superintendents, foremen, sub-bosses, etc. These, too, will come from the south, where they have worked with negro labor, and it is declared they will experience no trouble in pushing the black man at making the dirt fly.

In connection with the Oliver-Bangs combination, it develops that Oliver controls two-thirds of the syndicate. Bangs is the only other man interested, and this fact in part explains the lowness of their bid. Only two men will share profits.

Prisoners Are Sent to Atlanta.

Charleston, S. C., Jan. 16.—The term of the United States district court which has just closed, has netted two prisoners to the penitentiary at Atlanta, Henry W. G. Kennedy, a negro "dandy," former mail carrier, being convicted of robbing his mail bag and sentenced to serve two years at hard labor, and Lawson Wallace, sent up for three years at hard labor for breaking into a mail car in Barnwell county in September, 1905. Kennedys father was once the janitor of the postoffice and he was convicted of a similar charge and served a term of several years at the prison at Atlanta, Ga.

Loses Arm by Duel.

Clayton, Ga., Jan. 16.—As the result of a shotgun duel between John McCall and Logan Bleckley, McCall has lost his arm. Soon after McCall was wounded blood poisoning set in and it became necessary to amputate his arm. A warrant has been issued for Bleckley. It is claimed McCall was in the woods cutting timber about 2 miles from here when Bleckley came up to him with a shotgun cooked. McCall, who also had a shotgun, fired first at Bleckley, but only two or three shot hit him. Then Bleckley returned the fire, the entire contents of his gun entering McCall's left arm.

Killed by Explosion.

Knoxville, Tenn., Jan. 16.—A special to the Sentinel from Rogersville, Tenn., says that an explosion occurred in a cut being made on the Holston valey railroad construction work just south of this place at 9:30 Tuesday morning. A man named Hamilton was instantly killed and two others whose names are unknown, sustained injuries. All were white men. The accident occurred on the Smith & Reynolds contract portion. A charge of dynamite had been placed in excavating for a cut, and it exploded with fatal effect.

Denham, who has recently been chosen general manager of the Tampa Northern railroad, has arrived in this city to take up active work for the road. Capt. Denham will make his home in Tampa. The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

As the best evidence that the First Methodist Church is prospering along with other institutions in Gainesville, it is noted that the salary of the pastor has been twice increased within the past two years, until now he is one of the best paid ministers in the State, his salary having been raised a few days ago to $1,800 a year. Up to two years ago the salary of the pastor of this church was $1,200. In 1906 it was raised to $1,400 and from now on it will be $1,800, or about $5 a day, exclusive of house rent, the church providing the pastor and his family with a comfortable parsonage.

MR. HUNTER'S MISFORTUNE.

Was Thrown From Buggy in Ocala and Painfully Injured.

W. J. Hunter, the stock dealer, has returned from Ocala, and has an interesting experience to relate, from the result of which he suffered two broken fingers of the right hand, a badly sprained side, and other bruises.

Mr. Hunter states that a horse attached to the buggy in which he was driving began cutting capers, turning the vehicle over and spilling him out with serious results. He was picked up in an unconscious condition and taken to the hospital, where medical and surgical assistance was rendered, but he remained unconscious for ten days. As soon as he was able to travel he returned to his home here.

This was indeed a narrow escape, and Mr. Hunter's friends are congratulating him that he is still alive.

FLORIDA GROWERS WILL ORGANIZE

Meeting State Fruit and Vegetable Growers to be Held Soon.

WILL MEET IN JACKSONVILLE

The Movement, Which Has Been Long Talked of, Was Inaugurated by the Gainesville Melon Growers' Association, Which is Now Active.

As the result of a movement which was inaugurated by the Gainesville Melon Growers' Association, at a recent meeting, it is probable that a State organization will be perfected among the fruit and vegetable growers, for mutual protection. The need of such an organization has long been felt, but no active movement was taken in the matter until the suggestion was started by the local organization.

Frank D. Warner, secretary of the Gainesville Melon Growers' Association, stated Wednesday that a meeting of all the growers of the State had been called to convene in the board of trade rooms at Jacksonville at 2:30 o'clock on the afternoon of Wednesday, Jan. 30.

This will be an important meeting, and one which will prove of interest and benefit to every grower in Florida. It is anticipated, therefore, that the meeting will be well attended, and that a State association will be organized.

This association would accomplish a great deal in the matter of securing equitable rates, etc., and that will be one of the purposes of the organization.

PUT IN THE PEN FOR SAFETY.

White Man Charged With Assaulting a Little Girl.

Columbia, S. C., Jan. 16.—A white man by the name of Turner was brought to the state penitentiary by Sheriff Hunter, of Bamberg, for safe keeping and as a matter of precaution. He is accused of criminal assault on the little daughter of former Senator S. G. Mayfield, of Bamberg, formerly of Greenville.

Turner is related to the family of Senator Mayfield, and was employed at his saw mill as sawyer. He was staying in the Mayfield home, at Denmark. Mr. Mayfield was attracted by the cries of his little girl and discovered her in the room of Turner, where he had enticed her Mr. Mayfield seized Turner and beat him into insensibility.

TO ENJOY A GOOD DINNER.

How to Avoid Distress and Indigestion After Eating.

Let us tell you how you can enjoy a good dinner, so that the heartiest meal will set well on your stomach and cause no unpleasant and disagreeable after-effects.

We will show you how to regain the appetite of your childhood and the enjoyment of food, so that it will taste as well as when mother cooked the dinner.

There is no hard work necessary to do this; no need of a rigid and self-denying diet list; no call for nasty and disagreeable medicines. Simply take a Mi-o-na stomach tablet before each meal and before going to bed, and it will so strengthen the stomach that before long a hearty meal will give you gratification and comfort, without the least fear of distress and suffering.

The strongest proof we can offer of our faith in this advice, is the fact that J. W. McCollum & Co. give an absolute, unqualified guarantee (applying to two 50c boxes of Mi-o-na), that your money will be refunded unless Mi-o-na cures. A guarantee like this gives you confidence in Mi-o-na. They take the whole risk, and the remedy will not cost you a penny unless it cures.

Mi-o-na is not a mere digestive, giving only temporary relief, but a specific for all diseases of the stomach, strengthening the digestive organs and making a permanent cure.

Animals That Weep.

Travelers through the Syrian desert have seen horses weep from thirst, a mule has been seen to cry from the pains of an injured foot, and camels, it is said, shed tears in streams. A cow sold by its mistress who had tended it from calfhood wept pitifully. A young soko ape used to cry from vexation if Livingstone didn't nurse it in his arms when it asked him to. Wounded apes have died crying, and apes have wept over their young ones slain by hunters. A chimpanzee trained to carry water jugs broke one and fell a-crying, which proved sorrow, though it wouldn't mend the jug. Rats, discovering their young drowned, have been moved to tears of grief. A giraffe which a huntsman's rifle had injured began to cry when approached. Sea lions often weep over the loss of their young. Gordon Cumming observed tears trickling down the face of a dying elephant. And even an orang outang when deprived of its mango was so vexed that it took to weeping. There is little doubt, therefore, that animals do cry from grief or weep from pain or annoyance.—Harper's Weekly.

Went Uncalled For.

Deacon Elden Libby of Bridgton, Me., was a man of rugged virtues and indomitable will. Some winters ago while working in his wood lot he cut his foot badly, but, bandaging the wound roughly and putting snow into his boot to stop the bleeding, continued at his work until nightfall. Sad to relate, he took cold, and death resulted a few days later. A local character named Farrar was clerk and general utility man at the Cumberland House in Bridgton village at that time and was accustomed to make note on the hotel register from day to day of local events—the weather, etc. In his chronicle of this sad event he wished to indicate that Deacon Libby's death was unnecessary. The following may be seen today on one of the old registers at the Cumberland House:

"Deacon Elden Libby died today. He cut his foot badly, did not have the wound attended to and went to meet his God uncalled for."

He Paid the Charges.

A guest who had just registered at a hotel was approached by a boy with a telegram. It had $1 charges on it.

"What!" said the guest before opening it. "A dollar charges! I won't pay it. Anybody who cannot pay for his message when wiring me is certainly a cheap one. Wait a minute. I'll just let you report this uncollected, and the sender may pay the charges."

At that he tore the envelope open. As he read a smile settled on his face, and, pulling a dollar from his pocket, he handed it to the boy.

"It's all right," he said.

Then he threw the message on the counter. "Read it!" he said to the clerk. The message read:

Papa's little girl sends him fifty bushels of love and wishes he was home to kiss her good night. NELLIE.

Ants as Germ Carriers.

A German bacteriologist was conducting an experiment in the course of which he made use of typhoid infected mice. In another cage he had some mice which were in good health. Shortly after the uninfected mice also developed typhoid. Investigation showed that ants were passing from one cage to the other. Some of these ants were examined, and their bodies were found to be covered with the typhoid germs, which they were carrying from the sick to the well mice.

The Wolves' Muzzles.

He was telling a thrilling story of one of his hairbreadth escapes abroad, and the young girl leaned forward and hung upon his words breathlessly.

"And they were so near," he said, "that we could see the muzzles of the wolves."

"Oh," she gasped, "how glad you must have been that they had their muzzles on!"

How to Prevent Bilious Attacks

A Mild Laxative

Ask your doctor to name some of the results of constipation. His long list will begin with sick-headache, biliousness, dyspepsia, thin blood, bad skin. Then ask him if he would recommend your using Ayer's Pills for constipation. Just one pill at bedtime, a few times, that's all.

CHRONIC ULCERS

EXTERNAL EVIDENCE OF INTERNAL POISON

Whenever a sore or ulcer refuses to heal, it is a sure sign of a disease condition of the blood. The sore itself is simply an outside evidence of some internal poison, and the only way to cure it is to remove the deep underlying cause. Sores and Ulcers originate usually from a retention in the system of bodily waste matters and impurities. These should pass off through the natural avenues of waste, but because of a sluggish condition of the different members they are retained in the system to be taken up by the blood. This vital fluid soon becomes unhealthy or diseased, and the skin gives way in some weak place and a Sore or Ulcer is formed. The constant drainage of impurities through a sore causes it to fester, grow red and inflamed and eat deeper into the surrounding flesh, and often there is severe pain and some discharge. S. S. S. is the remedy for Sores and Ulcers. It is nature's blood purifier, made entirely of vegetable matter, known to be specific for all blood diseases and disorders. S. S. S. goes down to the very bottom of the trouble, and removes the poison and impure matter, so that the sore is no longer fed with impurities, but is nourished and cleansed with a stream of healthy, rich blood. Then the place begins to heal, new flesh is formed, the inflammation subsides, and when S. S. S. has thoroughly cleansed the circulation the place heals permanently. Special book on Sores and Ulcers and any medical advice desired will be sent free to all who write.

PEACH OUTLOOK NOT PROMISING

Warm Weather Causing Buds to Begin to Swell.

Macon, Ga., Jan. 16.—Large fruit growers living in Macon have become alarmed about the continued warm weather and they fear now that the peach crop will be seriously affected by the late cold. Examinations made in the orchards of the earlier crops show that the buds are sweling and unless the present warm spell is cut short the trees will soon be in condition to be ruined at the slightest cold snap.

E. J. Willingham stated that the Elbertas on his farm are fast responding to the weather changes.

Macon growers generally are somewhat anxious. They are certain that if the trees put out in full bloom at this time there will be no chance for a crop during the coming season. The weather is ideal and all throughout central and south Georgia the appearances are already those of early spring.

The general impression in Macon is that the fine weather is sure to cost the fruit growers hundreds of thousands of dollars. Only rapid changes will save the peaches. There are numbers of varieties which are said not to have shown any effect up to the present, but all will be in bloom if the present warm weather continues.

Dangers of a Cold and How to Avoid Them.

More fatalities have their origin in or result from a cold than from any other cause. This fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effectual medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by all druggists.

Wealthy Men for Senate.

Providence, R. I., Jan. 16.—Three men of vast wealth are candidates for the United States senate before the Rhode Island legislature today. They are George Peabody Wetmore, the incumbent who has served two terms; Colonel Samuel Pomerory Colt, of Bristol, and Colonel R. H. I Goddard, of this city. So uncertain has been the contest that before the legislature assembled shortly before noon for the balloting it seemed as if the contest could not be settled without several days of voting.

Wants Man Deported.

Washington, Jan. 16.—The immigration office has extended to February 1 the time in which Antonio Villareal, a Mexican now detained at El Paso, may show cause why he should not be deported to his native country. Villaread, it is charged, is illegally in the United States because he has served a term of imprisonment in Mexico for murder. The Mexican authorities are anxious to have the man deported because of his alleged revolutionary tendencies.

Eminent Doctors Praise its Ingredients.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes *than any other drug with which I am acquainted.* In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhœa (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, *there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as *the* tonic useful in all debilitated states."

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

To Investigate Election.

Springfield, Ill., Jan. 16.—Senator Henry Evans, of Kane county, on Monday introduced a resolution for the appointment of a special committee to be apointed by the president of the senate to make a thorough investigation of the election of J. H. Harahan to the presidency of the Illinois Central railroad. The resolution cites that this body is advised and believes that the election was illegal, having been without the boundaries of the state, in violation of the laws and declared policy of the state.

A Thousand Dollars Worth of Good.

A. H. Thurnes, a well known coal operator of Buffalo, O., writes: "I have been afflicted with kidney and bladder troubles for years, passing gravel and stones with excruciating pain. I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and I feel like a new man. It has done me $1,000 worth of good." J. W. McCollum & Co.

STRIKINIG GIRLS AT MEMPHIS.

Telephone Workers Persuade Strike Breakers to Return Home.

Memphis, Tenn., Jan. 16.—President Caldwell and General Manager Hume, of the Cumberland Telephone and Telegraph company, arrived here Monday from Nashville, to look after its strike of forty telephone girls.

Many women have been brought here from adjacent cities to take the place of the strikers, but the latter claim a large number of the new recruits have been induced to return home.

The county court heard a resolution instructing the county attorney to carefully investigate the charter of the Cumberland company, and if it was found defective, as the court believed it to be, the attorney is instructed to remove the company's poles.

The superintendent of the company, Foster Hume, has been arrested by Policeman Steele, charged with carrying a pistol, which, Steele alleged, was brandished at three striking girls.

Superintendent Hume was immediately released on bail.

The Grip.

"Before we can sympathize with others, we must have suffered ourselves." No one can realize the suffering attendant upon an attack of the grip, unless he had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the grip, however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that resulted in pneumonia or that has not recovered. For sale by all druggists.

Timber Boom Broken.

Parkersburg, W. Va., Jan. 16.—A timber boom erected in the Little Kanawha river at this place gave way and upward of $15,000 in timber belonging to local concerns was carried out into the Ohio river. The break caused the sinking of several barges, in addition to a part of the plant of the Parkersbug Dock company. Six or eight local timber concerns are heavy losers.

"Last Fall," writes Mrs. S. G. Bailey, of Tunnelton, W. Va., "I was going down by inches, from female disease, with great pain. After taking Cardui, Oh! My! How I was benefited! I am not well yet, but am so much better that I will keep on taking Wine of Cardui till I am perfectly cured."

Despite the envious attacks of jealous enemies and rivals, Cardui still holds supreme position today [as in the past 70 years] for the relief and cure of female diseases. It stops pain, tones up the organs, regulates the functions, and aids in the replacement of a misplaced organ.

1848—1907.

In the year 1848 gold was discovered in California. It is quite easy to understand the powerful influence that discovery has had in the development of the United States. Prior to that time the United States was poor, her credit was weak, and her resources undeveloped for the want of capital. Previous to the discovery of gold in California $500,000 would represent the entire annual output of gold in this great nation. That discovery put new life not only in the mining industry, but made every vein in the vast economic body throb with the newest and richest blood. Today, from a nation of borrowers, we have grown to be a nation of lenders and investors. Hoards of small investors have combined their resources and made possible the colossal mining enterprises. Mining has contributed more than any other industry to make the United States the richest government in the world. The time has come when almost every State in our great domain is a producer of gold, silver, copper, iron, lead, zinc, nickle, cobalt, quicksilver or coal.

THE CIGARETTE FIEND.

Our readers will pardon us if we use a little slang in expressing our views of the victims of cigarettes. Say, you young kid, you're a nice snipe with that cigarette under your nose, ain't you? You're the kind of a soft, pliable, flappy piece of a boy, all weakness and moral imbecility which the toughs take as apprentices and educate in the deep, dark mysteries of how to be bad. You are marked as a little fool by every decent man who sees you, and every time you indulge in the foolish and hurtful habit you are lessening your opportunity of being respectable. You want to be smart, but you know it isn't smart—nobody thinks it is smart. If you go into a strange town your cigarette spots you as a little hoodlum, and you will have to do a lot of good things before you can convince anyone that you are worth having. It impairs your health, ruins your reputation and makes a contemptible monkey out of what might be a respectable boy. Your friends are ashamed of you. If you are far enough along in your habit you glory in your shame and stick to it through pure cussedness. You ought to be transformed, but your mother hasn't given you up yet and wants you near her as you are. Nobody respects you, nobody ought to. You are the blossoms that yield the fruit of idleness and shame; you are the sprout from which a worthless bum will grow in time. You ought to quit it, and you know that you ought. Why don't you?

The Republican majority in the Senate still refuses to pass the bill to criminally punish the trusts, by giving the United States in all criminal prosecutions the same right of review by writ of error that is given to the defendant, including the right to a bill of exceptions. The object of the bill is to revise the decisions of the "trust made" Federal judges who, it is claimed, favor the trusts. It need hardly be said that these judges are Republicans.

Great excitement was caused at Iola, Kans., the other day because a brindle cat threw a fit in front of the leading saloon. Even a brindle cat, with nine lives to sacrifice, takes a great risk when he gets to fooling 'round one of Kansas' prohibition saloons.

The statement of Wm. V. Knott, State Treasurer, for the quarter ending December 31, 1906, shows a balance in the general revenue fund of $120,777.28. The total receipts during the year were $898,072.00, and disbursements for the year $777,294.72. The balance sheet shows total cash on hand of all funds $511,287.08. Total interest paid on public debt during 1906 was $18,047.00, the public debt consisting solely of refunding bonds amounting to $601,567.00, bearing interest at the rate of three per cent per annum, all of which are held by the educational funds of the State. Few States can make as good a financial showing as Florida, and not one can boast of a more honest, efficient and accommodating treasurer.

There is not enough joy in this struggling world. So few people have time for it; but children, happy children, who are brought up in sympathetic atmosphere, in the infinite leisure that is theirs, have an immense capacity for joy. How can we deny ourselves that enriching spectacle—a joyous child? The capacity for joy is one of the highest of the human faculties, and it is grossly neglected. We walk too much with our feet in graves. Let us laugh with the children and be young.

UNPROFITABLE FEEDING

Intelligent stock raisers know that a certain amount of feed is necessary to keep an animal alive. They might feed that amount as long as it lives, and it would never gain a pound.

There is no profit in that kind of feeding. The kind that pays is the kind that builds flesh rapidly. If it takes twenty pounds of food each day to keep a sheep alive, twenty-five pounds a day will make it gain flesh. It's the extra five that brings the profit. The first five pounds amounts to nothing, nor does the second or third or fourth five pounds.

It's the same way with advertising. You have to do a certain amount to overcome the resistance of the public.

You have to do a certain amount of advertising to make them wake up to the fact that you are in business at all. You have to pay a certain amount to keep your advertising alive. What you pay above that amount brings profit.

Some advertisers fail because they do not use enough space. They use barely enough or sometimes not quite enough to make the advertising self sustaining. A little bit more would make it profitable. It is better to advertise a little too much than not quite enough.—Charles Austin Bates.

Some of our advertisers could enlarge their space with profit.

ORIENTAL JUGGLERS.

Feats Performed by Chinese and East Indian Magicians.

"During a trip through the far east I was much impressed with the wonderful feats performed by some of the Chinese and Indian jugglers and sleight of hand artists," said a Chicago man the other day. "In American theaters we see some skillful work along these lines, but the performer is usually at a considerable distance from the spectators and could employ many aids that the orientals do not use.

"I have seen Chinese and Indian magicians come on board a ship and in the center of a circle of passengers perform tricks that are little short of marvelous. For instance, one of the Chinese would ask a spectator to place a coin in the latter's hand. The Chinaman would close the fingers one after another over the piece of money and then, by passing his hands over the closed fist of his "subject," would in some mysterious manner extract the coin. I have had this trick worked on me a number of times, and I am no nearer to knowing how it is done than I was the first time.

"Then I have seen an Indian magician come out on deck, place a small seed on the planks, pour a little water over it, cover with a small cloth for a moment and then remove the cloth to disclose a living plant a foot or more high. These fellows do not wear long, baggy sleeves in which a piano might almost be concealed, but have bare arms. There is said to be a clan of jugglers, among whom the secrets of the craft are jealously preserved and handed down from father to son."—Detroit Free Press.

DRESSED SEALSKIN.

The Way This Beautiful Fur Is Brought to Perfection.

If a lady's sealskin jacket be compared with the coarse, hard or dry-salted sealskin as imported, or, still better, with the coat of the living fur seals, one is struck with the vast difference between them.

Passing our fingers among the hairs of the cat or dog, we may notice fine short hairs at the roots of the longer, coarser general covering of the animal. This is so called under fur. But in the greater number of these animals the short hairs are so few and often so fine as to be, comparatively speaking, lost sight of among what to our eyes constitutes the coat.

The operation which the skin undergoes to bring out, so to say, the fur, may be briefly described as follows:

The skin, after being washed to rid it of grease and so forth, is laid flat on the stretch, flesh side up. A flat knife is then passed across the flesh substance, thinning it to a very considerable extent. In doing this, the blade severs the roots of the long strong hairs, which penetrate the skin deeper than do the soft, delicate ones under the fur. The rough hairs are then got rid of while the fur retains its hold.

A variety of subsidiary manipulations, in which the pelt is softened and preserved, are next gone through, and then the fur undergoes a process of dyeing which produces that deep uniform tint so well known and admired.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at all drug stores. 50c and $1. Trial bottle free.

Mrs. Bingbee—My dear, Mrs. H. [illegible] has not accepted [illegible] I [illegible] Mr. Bingbee—Husband is wise man. The idea of advertising to the world that her complexion is so bad that it won't stand the camera! Mrs. Climber—Well, that's true.

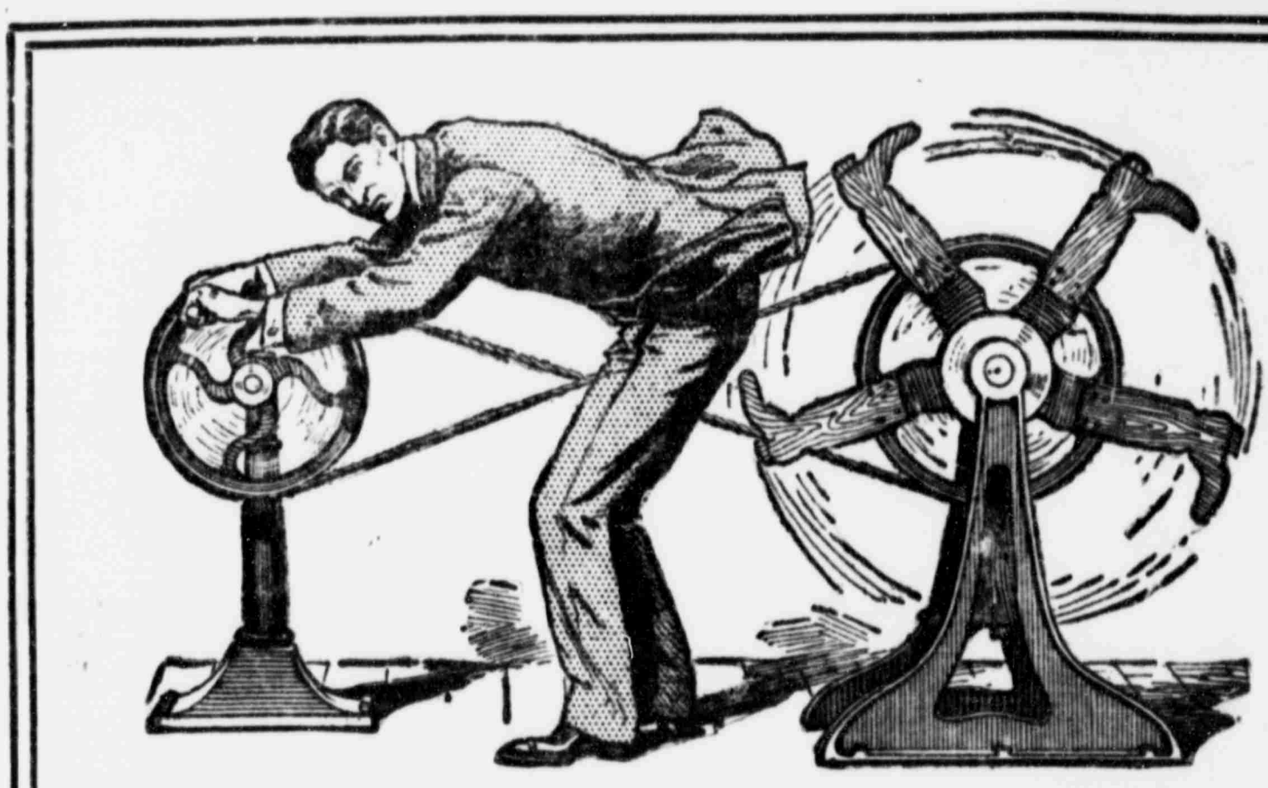
Chronic Constipation Cured.

One who suffers from chronic constipation is in danger of many serious ailments. Orino Laxative Fruit Syrup cures chronic constipation as it aids digestion and stimulates the liver and bowels, restoring the natural action of these organs. Commence taking it today and you will feel better at once. Orino Laxative Fruit Syrup does not nauseate or gripe and is very pleasant to take. Refuse substitutes. J. W. McCollum & Co.



This man bought a supply of tobacco without acquainting himself with the distinctive taste of SCHNAPPS Tobacco, which has the cheering qualities that gratify his desire to chew, and at less expense than cheap tobacco.

SCHNAPPS has been advertised in this paper so that every chewer has had an opportunity to get acquainted with the facts and know that drugs are not used to produce the cheering quality found in the famous Piedmont country flue-cured tobaccos, and that SCHNAPPS is what he ought to chew. Still there are chewers who accept other and cheaper tobaccos that do not give the same pleasure.

Some day they'll get a taste of the real *Schnapps*—they'll realize what enjoyment they've missed by not getting SCHNAPPS long ago—then they'll feel like kicking themselves.

SCHNAPPS is sold everywhere in 5 cent cuts, and 10 and 15 cent plugs. Be sure you get the genuine.

Von Bulow's Rebuke.

It so happened that two ladies were making their way to their seats at the very moment Von Bulow finished his introduction of the first movement of Beethoven's "Sonata Pathetic." This so irritated him that he purposely commenced the allegro at such an absurdly slow pace as to make the quavers in the bass correspond exactly to the time of the ladies' footsteps. As may be imagined, they felt on thorns and hurried on as fast as they could, while Von Bulow accelerated his tempo in sympathy with their increasing pace.—Barnett's Musical Reminiscences.

Debt Owed to Antiquity.

Are we indebted to antiquity? Yes, immensely. It is the labor, the experience, even the failures of ancestors, that have placed us where we are. We still repeat many of their mistaken experiments which they thought wise. It was tentative effort with them, though mistaken, and they did the best they knew. But, on the whole, the world is doing well. Its chief debt to antiquity is in the lessons it has learned through which it avoids or may avoid repetition of old errors and absurdities.—Portland Oregonian.

Do Animals Commit Suicide?

I do not believe that animals ever commit suicide. I do not believe that they have any notions of death or take any note of time or ever put up any bluff game or ever deliberate together or form plans or forecast the seasons. They may practice deception, as when a bird feigns lameness or paralysis to decoy you away from her nest, but this, of course, is instinctive and not conscious deception. There is at times something that suggests co-operation among them, as when wolves hunt in relays, as they are said to do, or when they hunt in couples, one engaging the quarry in front while the other assaults it from the rear; or when quail roost upon the ground in a ring, their tails to the center, their heads outward, or as when cattle or horses form a circle when attacked in the open by wild beasts, the cattle with their heads outward and the horses with their heels. Of course all this is instinctive and not the result of deliberation. The horse always turns his tail to the storm as well, and cows and steers, if I remember rightly, turn their heads.—John Burroughs in Outing Magazine.
